What is the Public Buyers Community Platform?

The European Commission's **Public Buyers Community Platform** is a digital space that fosters **collaboration** and **knowledge-sharing** among actors in EU Public Procurement.

As a hub where anyone active or interested in public procurement can network, exchange expertise and gain access to valuable resources, the platform's mission is to improve procurement practices and outcomes across the **European Economic Area**.

Our Communities of Practice

By leveraging the platform's features, these specialised groups work together to advance EU public buying in key areas, such as:

Artificial Intelligence

Fairness and circularity in information and communications technology

Sustainable photovoltaic energy

Digitalisation in construction
